TCO GUILLOTINE GLASS

Motorised triple glass panels, for full enclosure

2.00 × 2.00 – 4.00 × 3.00 m | **Somfy motor** | **Securit 4+4 mm**

General characteristics

The guillotine is the solution for **fully enclosing** outdoor spaces — cafés, restaurants, bars. It consists of **3 securit 4+4 mm glass panels**: the first stays fixed at the bottom and the other two **rise electrically** up to 3.00 m, driven by an internal **Somfy** motor. Stacked, the three panels take up minimal space.

Operation & specifications

Operation

The two moving panels rise and lower with a **Somfy tubular motor** inside the box, with a wireless remote. **Reverse operation** is possible: the fixed panel on top and the two moving ones lowering. For safe transport, the system is packed in a **wooden crate**, which holds up to 3 systems.

- Somfy motor with remote
- Optional reverse operation
- 3 securit 4+4 mm panels
- Wooden crate for up to 3 systems
